

G. Update

Visit Pengo's website:

https://pengohome.com/Product_Detail.asp?PiD=1FB76F322DBED1557A6D1152C78B5F30

Download both GUI Interface and FW update files and save in the same folder directory on your computer. Execute Pengo VideoSync exe. Click UPDATE, when the pop-up window shown, choose APPLY. Then wait around 2 minutes, until it shows "Firmware upgrade successful. Reboot VideoSync now!". Close the APP, restart you VideoSync, the UPDATE is done.

NOTE1: MUST save two files (VideoSync APP and FW) in the same folder directory.

NOTE2: DO NOT move or turn off the power either PC or VideoSync while updating.

NOTE3: Re-launch both the APP and VideoSync after updating.

Firmware upgrade successful, Reboot VideoSync now!
