

PENGO HDMI to USB-C 4K Grabber Setup for Facebook Live Streaming (with Chrome Browser)

First thing first, make sure your computer detects the Pengo in the device manager, under Camera and Sound.

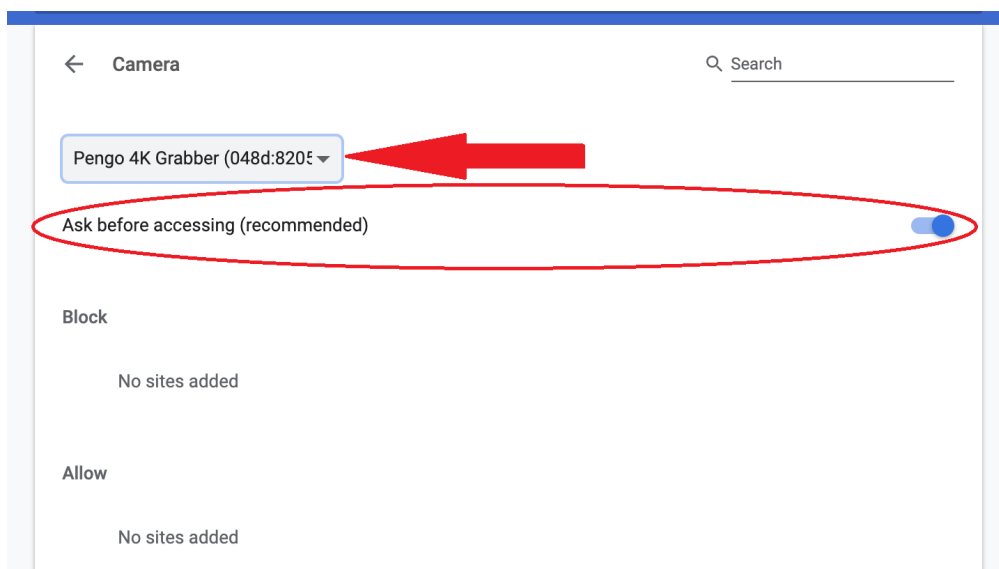

1. Go into Chrome Settings -> Privacy and security -> Site Settings

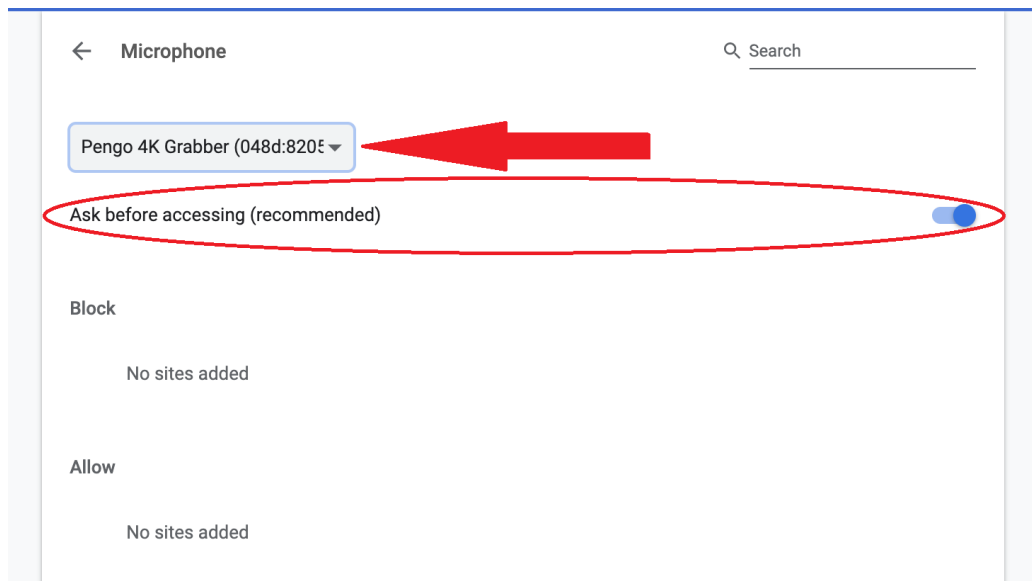

2. Select [Camera]

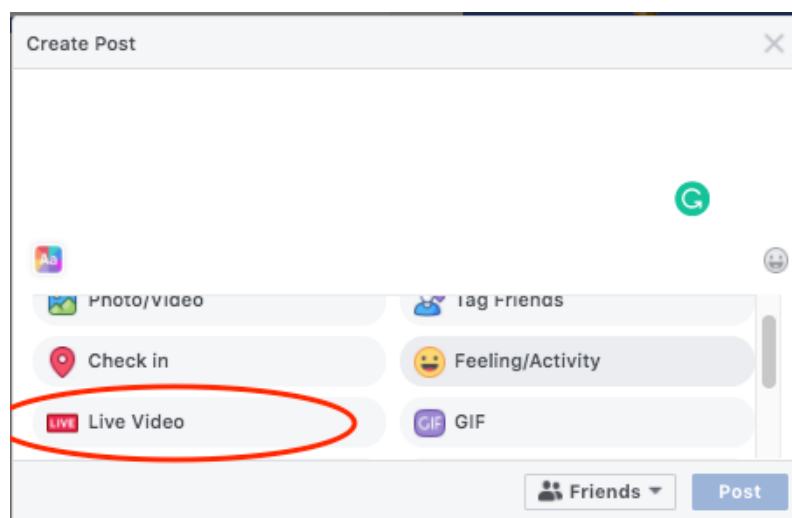

3. Make sure the device is selected and [Ask before accessing (recommended)] is ON

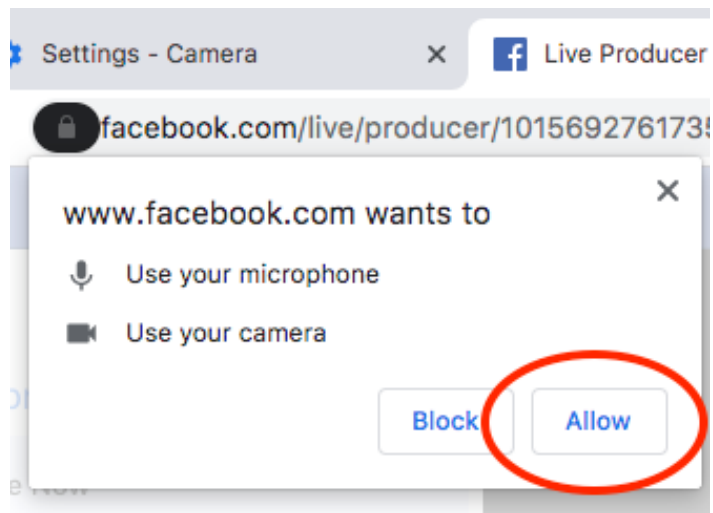

4. Under Microphone, make sure the device is selected and [Ask before accessing (recommended)] is ON

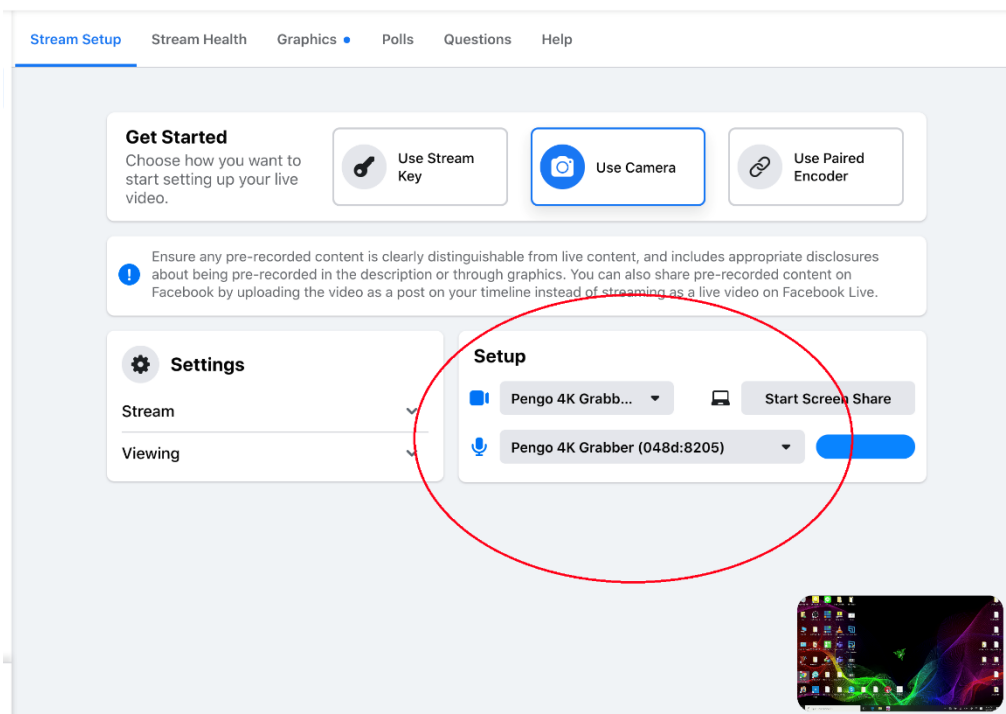

5. Under Create post on Facebook, select [Live Video]

6. After you select [Live Video], Chrome will ask for permission, click [ALLOW] ◦

7. It will then take you to the Stream Setup page, select the Camera and Microphone accordingly.
